Dear Carolyn Williamson,

My name is Phillip Clontz, and I am currently the calculus and programming teacher at New Hope High School. Jaime Ezzell informed me that you are currently looking to hire programmers as the company expands and the job immediately interested me. I believe that my skills in communication and teamwork would be a valuable asset in your team.

Since high school, I have been programming as a hobby taking several formal classes and learning on my own. My largest experience is with Java, C++, and Javascript. However, within the past two years as part of my programming class that I teach I have been learning SQL and Ruby. In fact recently, I have been working on helping one of my students learn to use the Ruby on Rails web application framework.

As a teacher, I truly believe that learning is a life-long process. As such, I am a quick and dedicated learner. I believe this will be helpful skill to bring to the company as I can learn from your current programmers about your platform. In addition as a teacher, I am good at communicating with thoughts and ideas with other people. I believe that a high level of communication between team members is an invaluable skill.

I would greatly enjoy having the opportunity to interview for the position of one of your programmers where I can explain what I can offer your team in more detail. I would love to meet with you for an interview at a suitable time. I can be reached by phone at (256) 541-1265 or by email [phillipac718@gmail.com](mailto:phillipac718@gmail.com). Thank you for reading this letter and your consideration.

Sincerely,

Phillip Clontz

## Key Words

Mathematics, C++, Java, Javascript, Ruby On Rails, Google Drive, Education, Eagle Scout, Leadership

## Education

The University of Alabama in Huntsville

**Bachelor of Science: Mathematics, Secondary Education**

**Expected Graduation Date: December 11, 2013**

- GPA: 4.0/4.0

- Relevant Coursework:

**Mathematics:** calculus A, calculus B, calculus C, linear algebra, introduction to probability, fundamentals of mathematics, real analysis, numerical methods, combinatorial enumeration, statistics

**Other:** technical writing, intro to C programming, computer science I, tech in classroom

## Work

### New Hope High School (2014- Present)

- Taught: Algebra 1, Geometry, Algebraic Connections, Algebra 2 w/ Trig, Pre-AP Precalculus, AP Calculus AB, Programming, Scholars bowl (2014-Present)
- Technology Integration Mentor (2015-Present)
- Technology Contact (2014-2015)
- NMSI LTF Trainer (2015-Present)
- National Honor Society Sponsor (2014-Present)

## Honors and Activities

- **Boy Scouts of America**  
Awards: Eagle Scout (2008)  
Volunteer: computer merit badge councilor (2011)
- **National Youth Leadership Training**  
course leader (2011)  
assistant course leader (2010)
- **Honor Societies & Honors**  
Phi Kappa Phi  
Kappa Delta Pi  
Alpha Lambda Delta  
Dean's List (2010, 2011, 2012, 2013)

**Personal  
Interests**

- Programming computer games
- Programming math demonstrations
- Playing music
- Puzzles
- Hiking and camping
- Learning new skills

**Technical  
Skills**

- Operating Systems: Windows, Android, iOS
- Microsoft Office: Word, Excel, PowerPoint, OneNote, Outlook
- Matlab
- Cyberlink Power Director
- Audacity
- Interactive Whiteboards
- Portable Tablets
- Google Drive: Docs, Sheets, Forms
- Geogebra
- Gimp
- Coding Languages: C, C++, Java, JavaScript, Ruby, SQL
- Ruby on Rails
- Git
- Cloud 9 - Cloud Based Ubuntu Workspace
